

Why not sit well?

SALLI AFFECTS WORKING EFFICIENCY

- Deepened breathing → more oxygen → more energy
- Reduced breaks and less sick leave
- Faster rolling and safer reaching
- Easier to reach to the "salli height" tables when standing
- All in all Salli significantly improves the productivity of work

SALLI AFFECTS THE PROFITABILITY

- Salli furniture is durable and people fall in love with them
- Improved sitting with Salli is an unbeatable investment
- The pay-back time of Salli work stations is counted in weeks

The more ergonomically demanding the working situation is, the more superior is Salli.

Basic facts about sitting

All users of traditional chairs suffer from the inevitable sitting-oriented disorders (SOD).

It shows in uncomfortable sitting, bad posture, increased neck and shoulder problems, strained joints in the lower extremities, weakened fluid circulation and the sitter becomes easily tired. Men may even suffer from bad sperm quality.

Traditional, problematic sitting

Comfortable Salli-sitting

When a person sits on a Salli Saddle Chair, the pelvis is positioned upright due to the large angle between the thighs and the upper body, thus forming a natural lordosis on the lower back. Seat bones support the upper body, which is straight and relaxed and does not need the back of a chair for support. Legs on the side of the sitter's body give support and allow easy moving. Shoulders are lowered and the muscles relaxed. This improved posture allows deeper breathing.

Development history

"In the 1980's I noticed my aching back was feeling much better when I was sitting on a horse saddle instead of an office chair. Therefore, in 1990 we started to develop the Salli Saddle Chair encouraged by a back specialist. Now, after 15 development models, we are exporting Salli Saddle Chair around the world. We are the only company who has managed to create saddle chairs that are comfortable and healthy for both sexes. Thousands of people have had the possibility to continue their career on Salli despite their back problems. In addition to them, there are tens of thousands of happy Salli-fans all around the world. We organise further research in this field and develop the design and accessories as the market leader in this business."

Veli-Jussi Jalkanen, Salli Systems

Salli Saddle Chair the Back Saver

SALLI AFFECTS THE WAY YOU LOOK

- Your posture improves
- Your legs don't get swollen so easily

Classic

Women's favourite, good all-purpose chair

Twin

Cool, healthy and comfortable - especially for men

Multi Adjuster

Adjustable chair for everyone, tilt and width adjustment

Junior

Changeable polyurethane-padding

Upholstery with genuine leather (16 colours) or fabric (4 standard and 56 optional colours)

Salli desks

Salli Comfort (+ accessory Nipsu)
Excellent design, which allows your hands and shoulders to rest. Recommended to be used with a saddle chair. Height 60 - 110 cm (24 - 43 inch), clever height-adjustment with a handle. Table top 150 / 80 cm (59 / 31")

Salli Elvis (+ accessory Nipsu)
Special workstation with metal frame. Easy to put together. Electronic height-adjustment 60 - 120 cm (24 - 47"). Table top 150 / 80 cm (59 / 31"), melamine, different colours available, eg. birch and beech.

Salli President
Large all-purpose office table. Table top 240 / 140 cm (94 / 55"). Quick-adjustment, spring-balanced frame for loads of 0 - 120 kg. Height-adjustment 60 - 120 cm (24 - 47"), locking under the table top. Standard leather-covered elbow padding.

Salli Office
All-purpose office table. Frame as with President. Table top 191 / 119 cm (75 / 47").

Salli School Desks
Primary school model: height 57 - 86 cm (23 - 34"). Secondary school model: height 71 - 105 cm (28 - 42"). Frame made of metal tube (32mm). Tabletop hard varnished plywood. Standard bag holder, pencil groove, cup holder and storage box as an accessory.

Salli Student
Light work desk. Width 118 cm (46"), depth 70 cm (27"). Mechanical height adjustment 71-105 cm (28-42"). Frame as in school desks but broodier. Can be used with accessories Nipsu or an ordinary elbow padding, together with a keyboard / laptop and thin monitor.

Salli Combi Extra table

Extra table is designed as an accessory to Salli Student and Salli school desks. Can be used as for monitor or helpdesk. With continuous-string height adjustment 57-102 cm (23-40"). Size 70x40 cm (28-16").

SALLI AFFECTS YOUR HEALTH

- Your back becomes healthier / stronger
- Comfortable for men's genitals
- Fluid circulation in lower body is stimulated
- Better for knee joints

Salli accessories

Antistatic Salli

Upholstery ESD leather or fabric. Fulfils the ESD norms set up by L.M. Ericsson.

Nipsu

Comfortable elbow, wrist and mouse-hand support. Prevents hand problems. Leather upholstery. Changeable handedness.

Foot rests

Sturdy metal frame. Steplessly quick-adjustable. Optimises the working position when the sitter's feet cannot reach the floor properly (e.g. at cash desks).

Arm rests

Relax the shoulders in long-term precise work. Height-adjustable 40 cm.

Polyurethane Salli

Washable and disinfectable, thus ideal in places requiring hygiene.

Seat cover

Made of cotton. Protects and adds to the breathability. Also available in spark proof material.

Foot-adjustment

Adjust the height of Salli "hands-free".

Foot support ring

Supports when your feet cannot reach the floor due to the working height.

Height adjustment tubes

can extend the steel feet of the tables up to suite Salli sitting height. Available in different sizes.

Standard delivery with large and sensitive 65 mm wheels, special wheels made to order!
